DEPARTMENT OF GEOGRAPHY

Academic Year 2021-22

Course Outcomes/ Programmer Outcomes/ programmer Specific Outcomes

A) Program Outcomes

B.A. Geography

Geography mainly concerns changes in spatial attributes in a temporal perspective. The Honors programme in geography is tailored to meet the students' specific educational and professional goals in mind. It focuses on spatial studies, qualitative as well as quantitative, and emphasizes on human-environment relationship. During the first year of the programme, the students are trained on advanced concepts of physical and human geography. The third year allows them to concentrate on specific areas of the subject, on which they complete their field reports. After completing the course, the students will be amply prepared for professional careers in geography and allied disciplines like GIS and Remote Sensing. They will also be able to pursue M.A/M.Sc. Course in Geography.

B) Programme specific Outcomes

9. **Physical Geography:** The students will be familiar with the physical characteristics of the earth. Students will be aware of the geomorphic processes that shape the earth. They will be able to correlate physical attributes of the earth with the human attributes.
10. **Human Geography:** Students will understand the importance of human activities on the earth. They will understand the impact of human activities on the environment. Students will also understand the reasons of cultural differences amongst the different cultures.
11. **Ability to solve problems:** They will understand the problems arising due to physical and cultural differences. They will also solve the problems arising due to these differences.
12. **Conduct Socio-economic surveys:** Students will know how to conduct social and economic surveys for the analysis of a specific problem.
13. **Application of surveying instruments:** Students will learn the application of modern surveying instruments such as Dumpy Level, Theodolite etc.
14. **Application of modern GIS and map making tools:** Students will learn the use of modern techniques like GIS and other cartographic techniques.
15. **Enhancement in the ability conduct a research:** Students will be capable of undertaking a research problem and conduct a research in the field of Geography.
16. **Understand the environmental problems:** Students will be able to understand the environmental problems.
